Long Beach City College Bond Management Team Celebrates another Ribbon Cutting

Cordoba's Bond Management Team celebrated the completion of the Long Beach Library Learning Resource Center as well as the Pacific Coast Campus' Central Plan in September with a ribbon cutting ceremony that included College Board Members, faculty, staff and community. The \$9 million, 21,000 square foot Library Learning Resource Center provides students with open computer access and multimedia areas for reference, study, and self-paced education. The \$5 million, 7500 square foot Central Plant and utility improvements replace obsolete existing individual building systems with a new centralized efficient and economical system. The Plant incorporates space for a maintenance facility, public safety office, a new Verizon MDF building, and the new PCC Campus Restroom.
